President William Jefferson Clinton
The White House
Washington, D.C. 20500

Dear President Clinton-

I respectfully urge you to
be extremely cautious in the promotion
of genetically engineered foods.
I hope the FDA will pre-market
test and certainly label all such
foods.

Please Can Bt corn to protect
the beautiful and scarce monarch
butterfly.

I hope you will hold corporations
producing genetically altered foods
liable for health and environmental
impacts. It is better to slow down
scientific "progress" until it is
more fully understood.

Thank you for your kind
attention.

WEINSTEIN

Sincerely yours,
Suzanne Rubenstein
